TITAN SMART

FASTRACK SMART

WATCHFACES

Design Kit

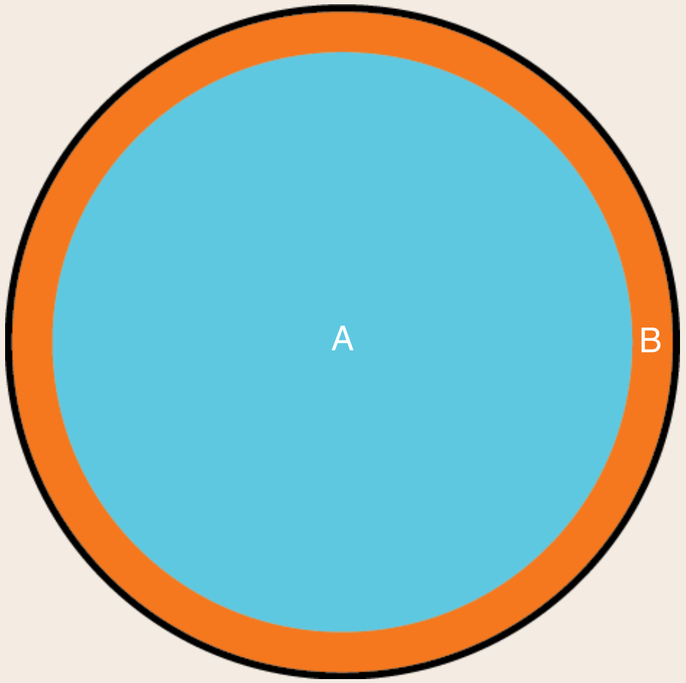

THEME

Open Innovation
Your Imagination, your Style

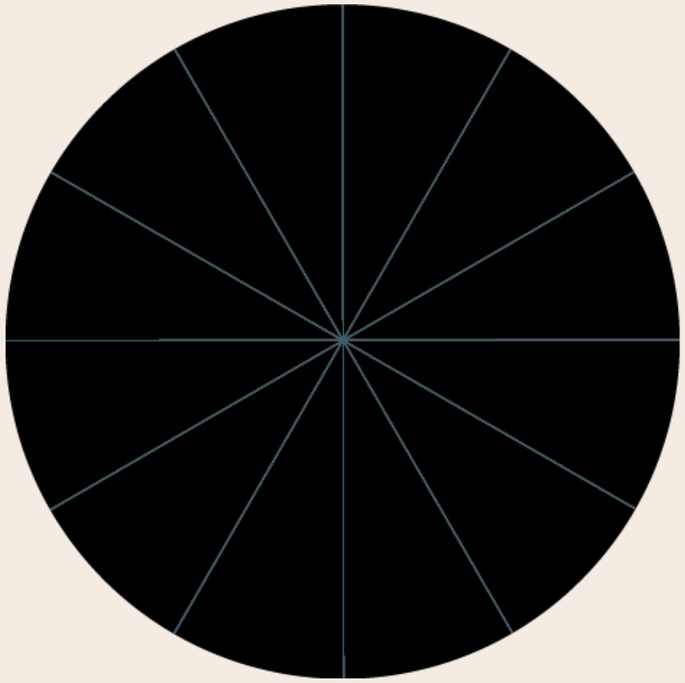

Break boundaries and reimagine the smartwatch experience. Explore bold ideas, experiment with unique concepts, and create a watch face that reflects your creativity. From minimal and functional to futuristic and unconventional, there are no limits to what you can design.

Tech Pointers

A
Time,
Data components

B
Only
decorations

30° divisions for better placement of components and for the design to be centre aligned.

Text & Fonts

- **NOTE:** Before using any font, make sure it is commercially free to use!

- Sites to find commercially free fonts:
    - Google font
    - Font Share
    - Freefaces.gallery

- **Text guidelines:**

- Heart Rate

Device:
- Battery
- Bluetooth
- Connectivity

- Icons help denote a particular activity or element with no use of words.
- Icons also enhance the beauty and purpose of a watchface making it more prone to be picked by the user.

Color Theory

Color Psychology

Red

POWER, ENERGY, LOVE, STIMULATION, ACTION, STOP, STRENGTH, PASSION, DESIRE

Orange

MOTIVATION, POSITIVITY, ENTHUSIASM, PLAYFULNESS, HAPPINESS, CONFIDENCE

Yellow

OPTIMISM, HAPPINESS, WARMTH, CHEERFULNESS, BRIGHT, CONFIDENCE, JOY, INSPIRATION

Gold

DIVINE, LUXURY, EXPENSIVE, RADIANT, VALUABLE, REFINED, PRESTIGIOUS, WISDOM

Blue

TRUST, DEPENDABILITY, RESPONSIBILITY, CALM, STRENGTH, MENTALLY SOOTHING

Purple

IMAGINATION, CREATIVITY, SPIRITUALITY, ROYALTY, MAGIC, MYSTERY, COURAGE

Pink

FEMININITY, SOPHISTICATION, ROMANCE, SINCERITY, JOY, CREATIVITY, CALMNESS

Black

BOLDNESS, FORMALITY, MYSTERY, LUXOURINESS, STRENGTH, SERIOUSNESS

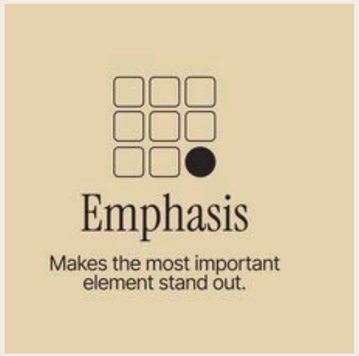

Brown

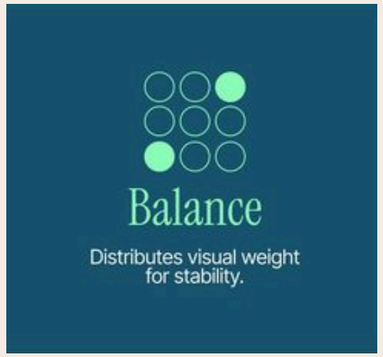

EARTHY, GROUNDED, WHOLESOME, SECURE, TRADITIONAL, WARM, RELIABLE, NATURAL

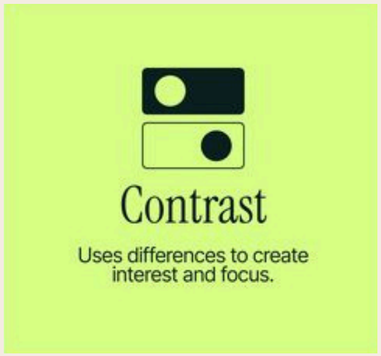

Green

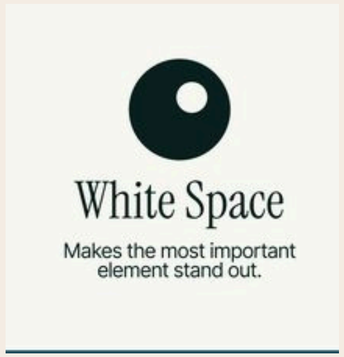

BALANCE, HARMONY, GROWTH, NATURE, REST, PEACE, LIFE, HEALTH, MONEY, LUCK

Principles of Design

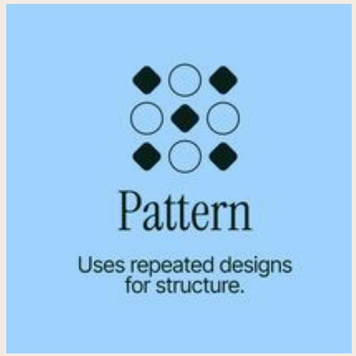

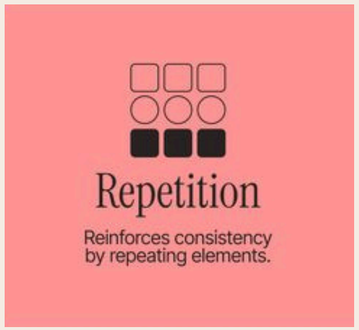

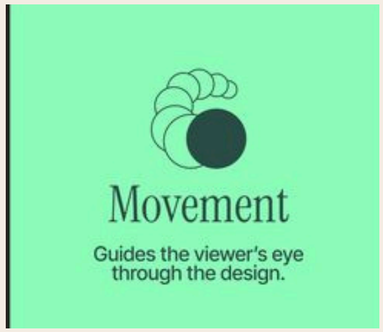

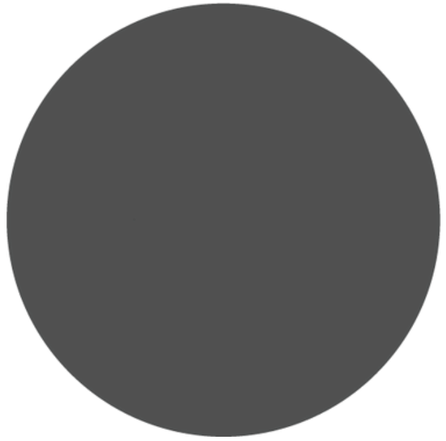

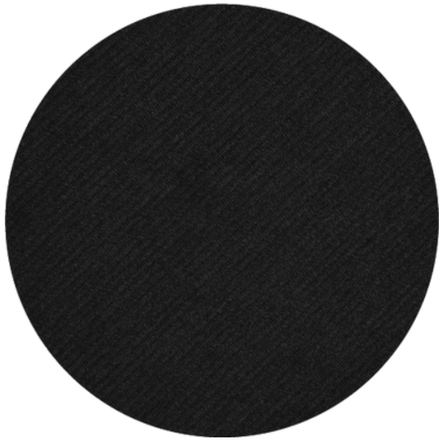

Watchface Design Process

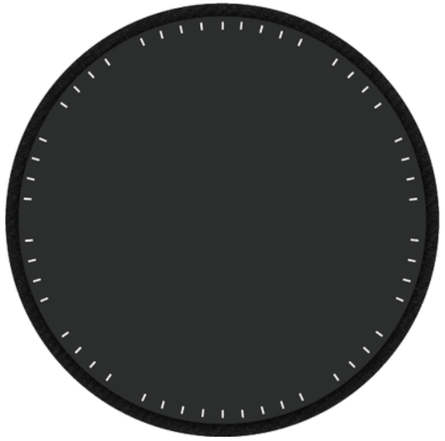

Step 1

Started with a plain color in the required size and shape.

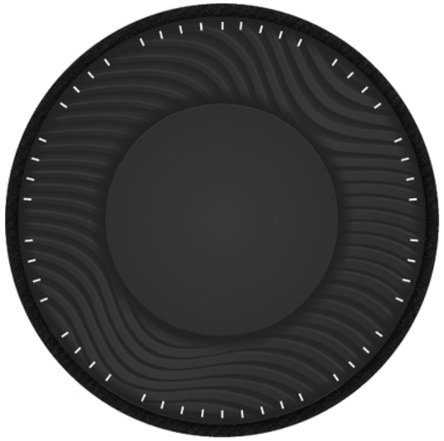

Adding a layer of patterened background for more depth.

Step 2

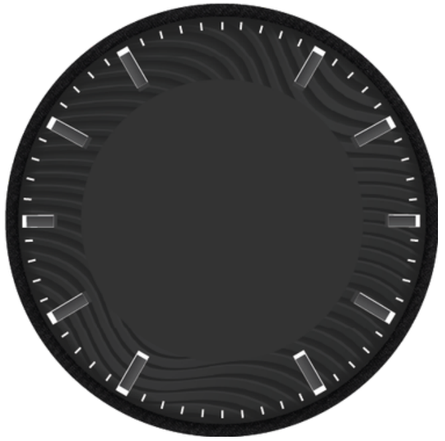

Step 3

A smaller circle on top for more depth, plus analog indices.

Addition of another patterned background for more depth

Step 4

Step 5

Placing a smaller circle in the centre with hour number indices.

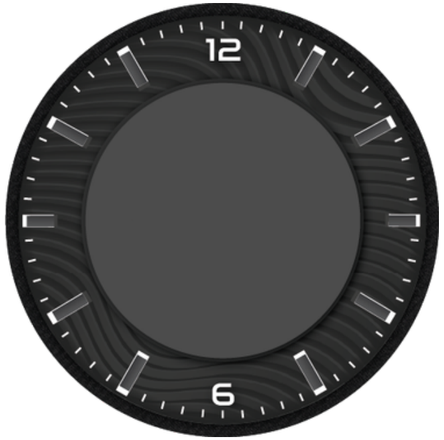

(Only for reference)

Watchface Design Process

Step 6

Adding shadow to the innermost circle for a better feel of the watchface.

Adding 12, 6 hour numbers for another element addition and the brand logo.

Step 7

Step 8

Complication to tell the date and day, but in a unique way

Calorie complication added for a betetr user experience.

Step 9

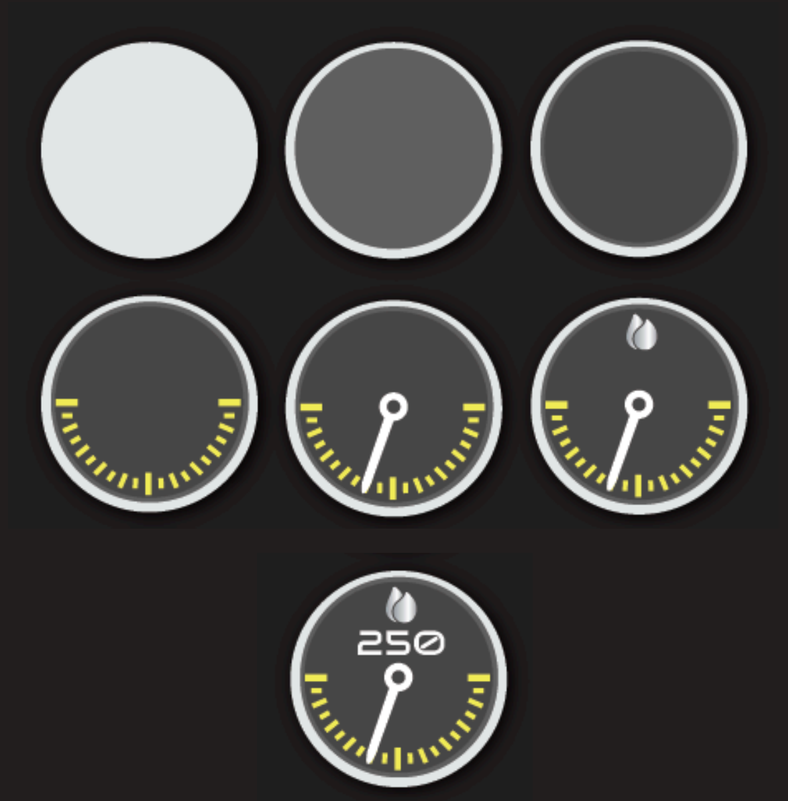

Step 10

Step count complication added for a better user experience.

(Only for reference)

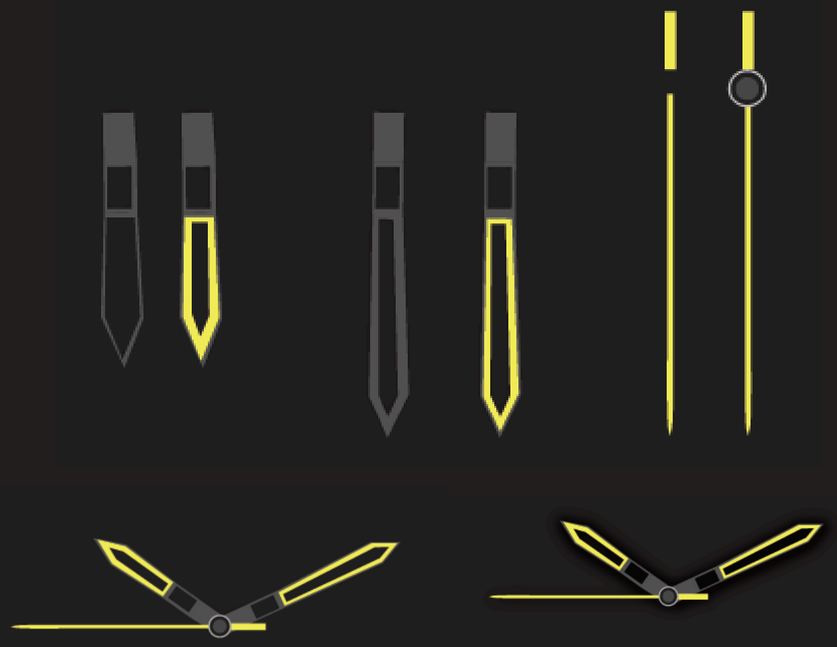

Watchface Design Process

Step by step process of creating the complications

Gradient work on icons, logo and indices

Step by step process of creating hour, minute and second hand

How to download a packaged design file

(For Abobe files)

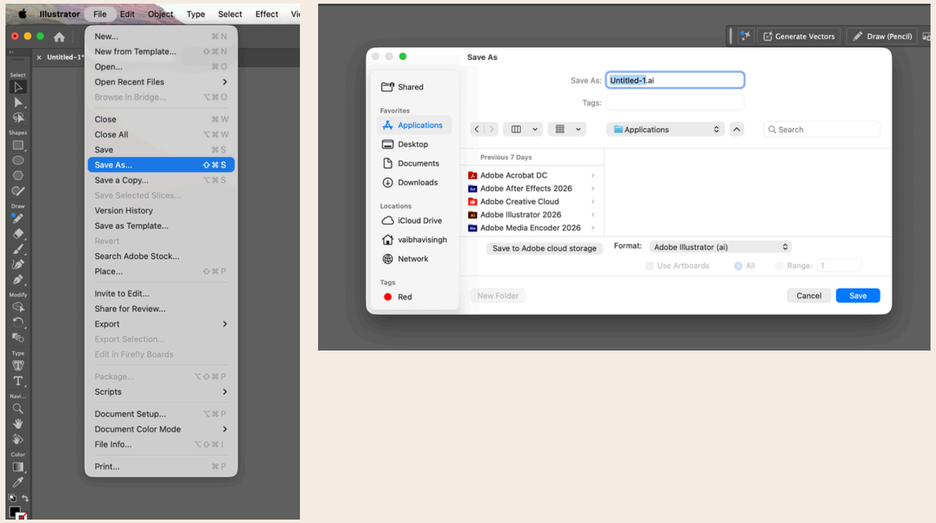

Step 1

Your design file (Process shown for Adobe Illustrator but other softwares have a similar process)

Step 2

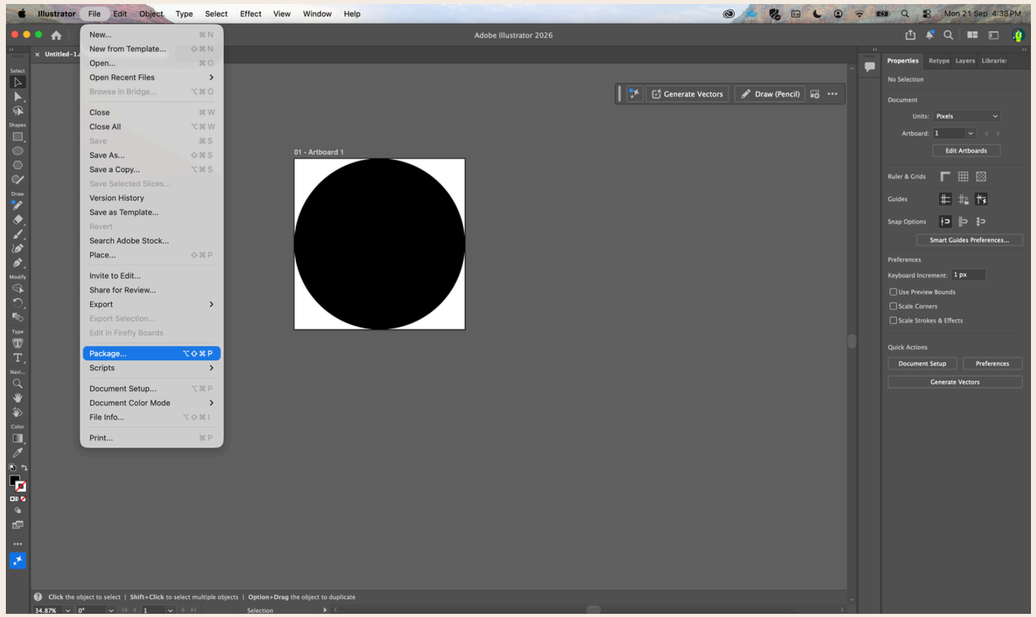

Click on File from the top left navigation bars

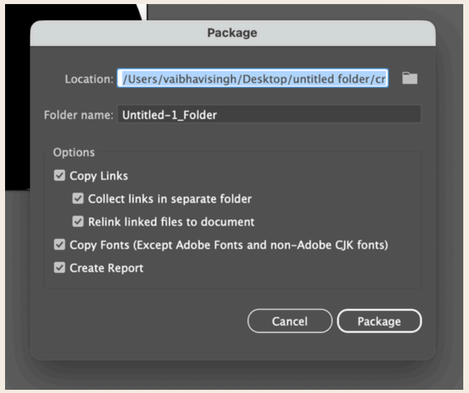

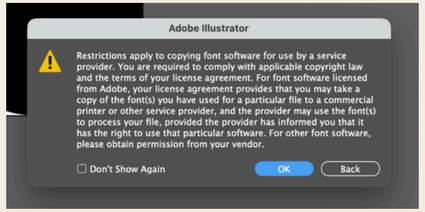

Step 3

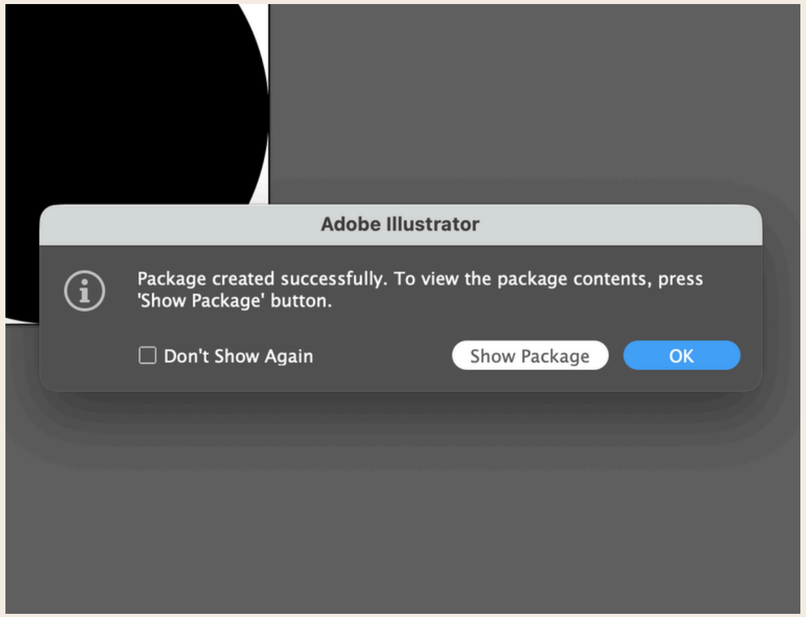

Save the design file

How to download a packaged design file

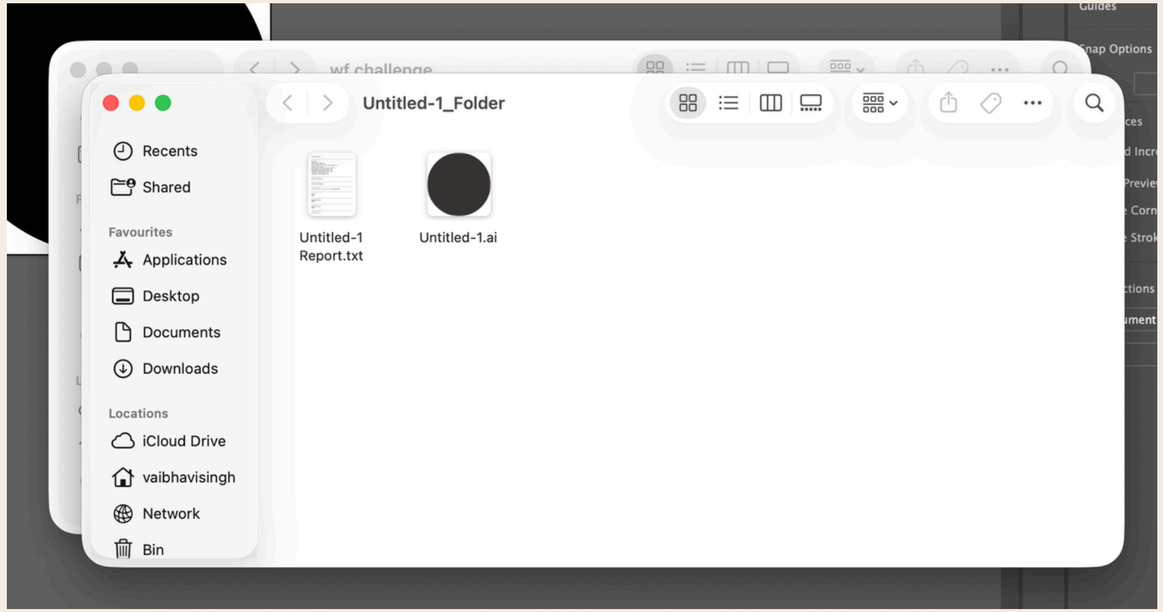

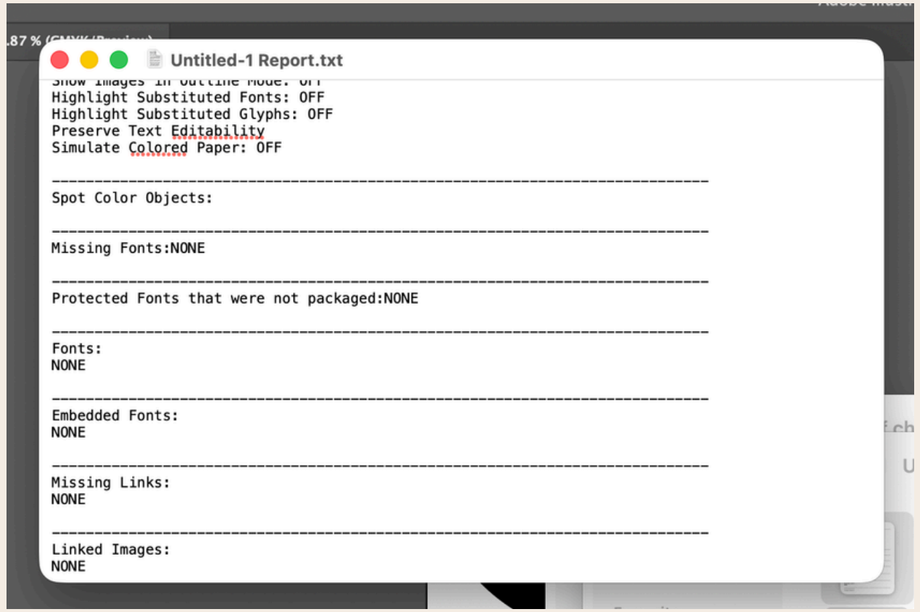

Step 4
Click on File and then Package

Step 5
Specify File location and name for the packaged file

Your packaged design file is ready!

How to check your packaged design file

Additionally, open the packaged design file and check the report for any missing links and missing fonts. (Without this the designs would be disqualified)

Thank you!

All the best!
